Consolidated Subject Research Record: Potential Offspring of Stuart John Collier

Investigative Context

The following consolidated record details potential children born to the target, **Stuart John Collier**, across two known maternal relationships (**Ann Shackleton** and **Jennifer J. Lockerbie**). The data aggregates civil registration records from the Districts of Oxford (Oxfordshire) and Lewisham (Greater London) spanning from July 1972 to November 1995.

> **Investigative Note:** This timeline represents specific windows of interest extracted from localised civil indexes. It provides a structured overview of potential maternal matches but should **not** be considered an exhaustive list of the subject's total offspring.
